mobile*Rx*

With the mobile*Rx* app, you can refill prescriptions on your mobile device. Enter the prescription number or scan the barcode on the prescription label. The app also displays your pharmacy's hours and phone number. Follow the steps below to get started. Please note that your prescriptions will be available for pick up from your usual designated location.
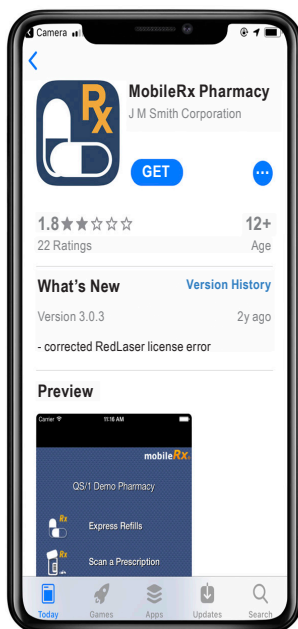

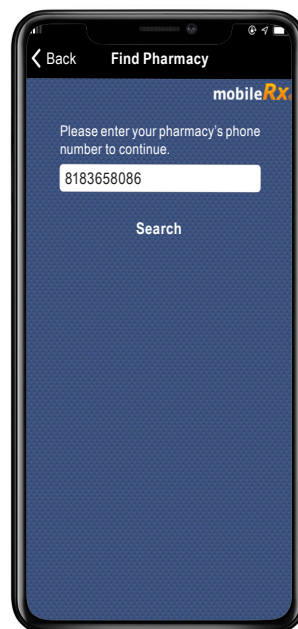

1. Get the App

To get started, search for mobile*Rx* Pharmacy in your app store or use your smartphone camera and a **QR** code reader/scanner application to scan the appropriate QR code to find the app.
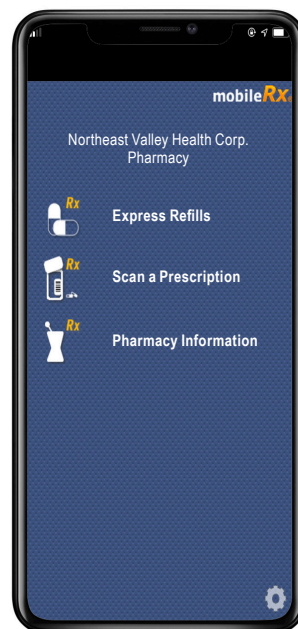

2. Find Pharmacy

To use mobile*Rx,* you must find your pharmacy. When the **Select Pharmacy** pop-up displays, tap **Find Pharmacy**, and enter the phone number (**8183658086**). Tap **Search**.

3. Home Screen

The home screen will then display options for requesting refills. Choose **Express Refills** to enter the prescription numbers or tap **Scan a Prescription** to scan the barcode on your current prescription label.
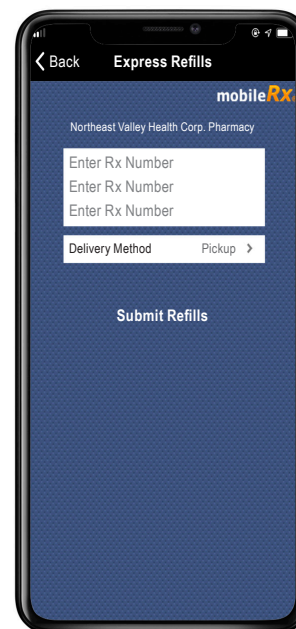

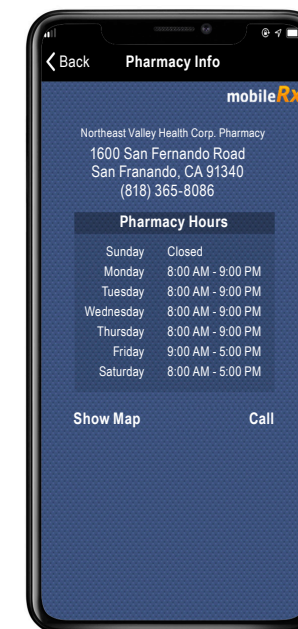

4. Express Refills

Express Prescription Refills allows you to enter up to three prescription numbers to be refilled at a time. To request more than three refills, repeat the process. Then, tap **Send**.
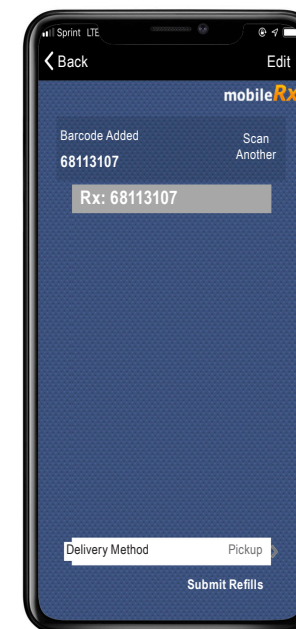

5. Scan Prescriptions

Use your device's camera to scan the barcode on your current prescription bottle's label. Tap, **Submit Refill(s)**.

6. Pharmacy Info

This screen displays information about your pharmacy, including name, address, phone number and hours of operation. A map to the location is available.
