

CSUN-NEVHC WIC Dietetic Internship

About the Program

The CSUN DI and NEVHC WIC Combined program is a full time post-baccalaureate program that admits only individuals who have completed the Didactic Program in Dietetics requirements and have at least a bachelor's degree. Approximately 12-14 interns will be accepted each year, with four in the Community [COM] WIC concentration.

** For COM concentration: The intern must be employed by a California WIC program at the time of application and maintain continued employment in good standing at a WIC agency. If the four spots are not filled with WIC employees, other applicants will be considered.*
